Care Instructions for Feather-Filled Cushions

Fluff and Shake: Regularly fluff and shake your feather-filled cushions to maintain their loft and restore their shape. This helps redistribute the feathers evenly and prevents them from clumping together. If the cushion looks flat, it's time to fluff it.

Rotate and Reverse: Rotate and reverse the cushions frequently to ensure even wear and tear. This helps prevent one side from flattening more quickly than the other.

Protect from Direct Sunlight: Avoid placing feather-filled cushions in direct sunlight for prolonged periods. Exposure to direct sunlight can cause the fabric to fade and the feathers to become brittle.

Avoid Moisture: Keep feather-filled cushions away from moisture and damp areas. Moisture can lead to the growth of mold or mildew, which can damage the feathers and create unpleasant odors.

Gentle Spot Cleaning: If a spill or stain occurs on the cushion, attend to it promptly. Blot the affected area with a clean, absorbent cloth or sponge, using a mild detergent or an approved Amart upholstery cleaner suitable for feather-filled products. Avoid rubbing, as this can push the stain deeper into the fabric.

Professional Cleaning: Periodically, it is recommended to have your feather-filled cushions professionally cleaned. Professional cleaners have the expertise and equipment to effectively clean and refresh the cushions without damaging the feathers or fabric.

Remember, following these care instructions will help maintain the longevity and comfort of your feather-filled cushions, ensuring that they continue to provide you with cozy and luxurious seating for years to come.

Note:- Sometimes feathers may work their way out of the fabric casing. This is normal and not a manufacturing fault.

CARE AND MAINTENANCE

REGULAR CARE:

- Protect from direct sunlight
- Vacuum regularly using low suction
- Rotate reversible cushions regularly
- Avoid exposure to new clothing, cushions or throws as this may lead to dye transfer and permanent staining

CLEANING:

- Do not remove cushion covers for separate cleaning even though they may have zippers
- Do not wash, Do not dry clean, Do not shampoo clean
- Clean only with hot water extraction machine. Professional cleaning recommended
- Do not use dishwashing liquid or laundry detergent. Use only upholstery detergents
- Do not wet filling
- Dry in shade away from direct heat and sunlight
- Allow to dry thoroughly before re-use

SPOT CLEANING:

- Do not rub
- Do not spot clean with any solvent
- Treat spills and stains as soon as possible
- Gently scrape off any soil or blot any liquid from the surface of the fabric before applying cleaner
- Apply proprietary cleaning agents strictly according to instructions to remove the residue of the spill
- Do not saturate the fabric or interior with water or other cleaning liquids

WARNING:

Apply only water-based soil resist (fabric protection) treatments. Do not use aerosol products

* PILLING IS NOT A FABRIC DEFECT OR FAULT AND IS NOT COVERED BY WARRANTY

* PILLING IS A NORMAL OCCURRENCE CAUSED BY WEAR AND TEAR AND DOES NOT AFFECT THE DURABILITY OR FUNCTIONALITY OF THE FABRIC AND IS EASILY REMOVED
