# PRE-ASSEMBLY PREPARATION

## Before you start:

1. Choose a clean, level, spacious assembly area. Avoid hard surfaces that may damage the product
2. Take care when lifting. Product be assembled as near as possible to the point of use
3. Ensure that you have all required contents for complete assembly
4. Always read the assembly instructions carefully before beginning assembly
5. Keep all hardware parts and packaging out of small children
6. Do not over tighten the screws and bolts as this may damage the threads

|                                                                                     |                                                                                      |
|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
|  |  |
| ALLOW 15 MINUTES                                                                    | 2 PEOPLE REQUIRED                                                                    |
|                                                                                     |                                                                                      |

# PARTS LIST

|                                                                                                                               |                                                                                                                                |
|-------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| <p>A.1PC</p>  <p>Seater</p>                | <p>B.4PC</p>  <p>Leg</p>                    |
| <p>C.16PCS (M8)</p>  <p>SpringWasher</p>   | <p>D.16PCS(M8*19mm)</p>  <p>Flat washer</p> |
| <p>E.16PCS(M8*15mm)</p>  <p>Allen bolt</p> | <p>F.1PC (M5*100mm)</p>  <p>Allen Key</p>   |
