Outdoor Wicker Furniture Care Instructions:

• What is Wicker?

• Wicker is a weaving technique used to create outdoor furniture, baskets, and decorative items. It involves weaving thin, flexible strands of materials like rattan, bamboo, or synthetic materials to form intricate patterns. Wicker furniture is known for its natural beauty and durability, making it a popular choice for outdoor spaces. In this guide, we'll share care instructions to help you maintain the appeal and longevity of your wicker outdoor furniture.

• Regular Cleaning:

1. **Frequency:** Every 4-6 weeks, clean your outdoor wicker furniture to maintain its appearance and longevity.
2. **Cleaning Solution:** Use a mild detergent mixed with warm water for cleaning.
3. **Washing:** Gently wash the furniture with the detergent solution, paying attention to intricate woven areas. Use a soft cloth or a soft brush to remove dirt and debris.
4. **Rinse:** Thoroughly rinse the furniture with clean water to remove any soap residue.
5. **Drying:** Ensure the furniture is dried thoroughly after cleaning to prevent oxidization. Let it air dry completely in a well-ventilated area, preferably in indirect sunlight.
6. **Dust Regularly:** Dust your furniture regularly with a soft brush or vacuum cleaner with a brush attachment to prevent dust buildup, which can damage the surface.

• Seasonal Maintenance:

1. **Sunlight Exposure:** Avoid leaving your furniture uncovered in direct sunlight for extended periods, as prolonged exposure can cause fading and material deterioration.
2. **Cushion Care:** Remove cushions from the furniture and store them in a covered or undercover area when the furniture is not in use. This helps protect the cushions from the elements.
3. **Weather Protection:** Amart always recommends the use of an outdoor protective cove for your outdoor wicker furniture when not in use. Ensure the covers are clean and completely dry before use to prevent mold and mildew growth. Even when your wicker furniture is under a patio or awning, Amart still recommends the use of cover – to prevent fading or sun damage.

By following these instructions, you can maintain the longevity and appearance of your outdoor wicker furniture.
