PRE-ASSEMBLY PREPARATION

Before you start:

1. Choose a clean, level, spacious assembly area. Avoid hard surfaces that may damage the product
2. Take care when lifting. Product should be assembled as near as possible to the point of use
3. Ensure that you have all required contents for complete assembly.
4. Always read the assembly instructions carefully before beginning assembly.
5. Keep all hardware parts and packaging out of reach of small children.
6. Do not over tighten the screws and bolts as this may damage the threads

PARTS LIST

C1	Top panel		
C2	Metal Support		
C3x3	Leg		

A.Bolt M6x10	<input type="checkbox"/> B.Bolt M6x20	<input type="checkbox"/> C.Protect Foam Ø30X5mm	<input type="checkbox"/> D.Hex key M4	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
						
6PCS	9PCS	6PCS	1PCS			
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

STEP 1:

Use Hex Key D to tighten metal support C2 to legs C3 with bolt B.

STEP 2:

Paste protect foam C on the bottom of the legs C3.

Use Hex Key D to tighten legs C3 to the top panel C1 with bolt A.

Assembly is complete

Note -

Do not drag the furniture as this may cause damage to the legs. Instead, use 2 persons to lift carefully from either end.

Product Care for Timber Items

As our timber is supplied from sustainable forests there will be natural variations in surface texture and grain like knots, mineral streaks and sap runs that may affect the finish. These differences in character are not defects, but distinctions that make each piece of furniture unique

Our furniture is built to last. Following these steps for basic care should protect your investment for years to come

- Dust frequently with a clean damp lint-free cloth. This will help remove abrasive build up which can damage a finish over time
- Do not place hot objects on any furniture surface. Always use a hot plate or placemat. Laminate and lacquer finishes on table tops provide added scratch and heat resistance to our furniture, but they can still be damaged without proper care
- Avoid exposing your furniture to strong sunlight, heat outlet, open windows or dampness. Prolonged exposure to direct sunlight can fade the finish of your furniture, while extreme temperature and humidity changes can cause cracking or splitting
- Do not expose your furniture to any liquids. Never allow water to sit on your furniture. Alcohol, nail polish and perfume are also dangerous as they will dissolve the lacquer finish on contact and may require professional repairs
- Do not allow plastic to come in direct contact with your furniture. Chemicals in the plastic of placemats etc. may soften and mark the finish if left in contact with the furniture for a period of time
